

Solar powered camping lantern light

Up for Auction here is a high quality and robust camping lantern with 2.2watt integrated

solar panels. The lantern throws out a great amount of light and comes complete with a dimmer switch. This lantern has a USB output for charging portable electrical equipment. Included with this lantern is a power cord to charge the internal battery using a 240v

Australian plug socket, should the sun not shine.

This heavy duty solar lantern is an ideal portable size and weight lamp for camping, boating, other outdoor activities, emergency, and medical purposes. It could be powered by AC electricity, or the sunlight. No bulb burning, and battery replacement ever. It also charges cell phone on-the-go for good emergency uses. This is safest lamp and light even for children to play with. With the adjustable brightness switch, you light up longer time by using less brightness. Buy it and

go on your next vacation or adventure, it will never fail you whenever there is sunlight.

For outdoor activities or as part of every family's emergency kit, this lantern demand no maintenance. No bulb burn out or battery replacement.
